

MAKE BETTER BUSINESS DECISIONS, MORE QUICKLY

Starting or running a business? UMi can help take the hard work out for you and your business by finding and packaging the best information, expertise and finance, which you can access now through our exciting new platform.

EXPLORE UMI

Since 2007, UMi has helped more than 450,000 small and medium-sized businesses do more and go further by offering a range of support services covering everything from productivity and business legislation to finance and funding and digital transformation.

As a result, UMi has built a wealth of information and expertise on all aspects of business, both within its 140+ team and across its large UK-wide network.

It has also generated a huge amount in data, not just on what support SMEs need and what tools can help them but, crucially, when they'll need it - even if they don't know it yet.

Armed with this extensive knowledge and insight, we took the strategic decision to develop an intuitive and easy-to-use platform to make it easier for customers.

The UMi Platform, which officially launched this autumn, combines real world and digital channels and uses data to deliver a more convenient and personalised service, while facilitating more meaningful and ongoing relationships with businesses. Think of it as a sat nav for your business blended with the opportunity to actually speak to a real human.

No credit card details are needed to enjoy the 30-day free trial, after which, you can choose to continue to be supported for just £9.99 monthly subscription (that you can cancel at any time).
